“ I know it's over a year since her passing, but Brenda was a good neighbor. The walk home from the bus stop isn't the same anymore. She was a wonderful friend and an even better mother. She cared for her children and neighbors. When I'd walk home from school I couldn't stop from talking to her because she was a sweet woman and was able to help. I'm sorry for this happening and wish the best for you.

“ To my Uncle Hoyt and his and Brenda's children. I remember meeting Brenda when she came up to hoyt's home in pinhook. She was so sweet and nice. we fell in love with her. I can remember when they got married in gatlingburg. she showed me her ring and said we just got married. she was full of happiness. I know it will be sad for my uncle Hoyt and the girls and grandchildren but just remember you will see her again! May God Bless each one of you. Love, Maybelle Edwards

“ Hoyt and Family, Robin and I are very saddened for your loss and our prayers will always be with you all through this time. I remember those times when I would come by reading meters and we would talk and Ms. Brenda would give me a cold glass of water on those hot summer days. Y'all were like family to me. Even though we haven't been in close contact in a few years I still feel that way. I appreciate you all being there for us, doing work for us through the years especially since our tragedy of losing our home due to the fire last July. It brings us comfort having someone like you all that have done such good work. Ms. Brenda will be missed.
With Love, Robbie and Robin Eades

You will be sadly missed Brenda! Every time we've been around Brenda there has always been a smile on her face. What a good cook....every time the kids have had something at their house she's always brought food.

I find myself thinking about you randomly. I like to think when I have these thoughts that its you letting me know you're here. I wish we could have spent more time together when I was a kid but that was out of your control. Nana everything you did for me meant everything to me. You are the first person I've been close with that I've lost. I wish that I would have talked to you once more before you passed away. I still think about how i didnt talk to you one more time. Thank you for picking me up from school and every single thing you ever did for me. I hope that you know I love you so so much and appreciated it everything greatly. Every time I look out my front door I think about us sitting out there and talking. I think about you when I look at poncho he loved you so much.
