“ Bryan was such an amazing person it was an honor to work alongside him. He could fix just about anything. I would hand him a mangled mess and say "make it go" and sure enough he would make it go. He would sing and laugh and tell jokes and stories in his own quiet way. Making even the toughest days that much easier. Many times I came to him for advice and he helped me with a lot of things both at work and outside of work. He had a wealth of knowledge and was more than willing to share it with anyone who was willing to learn. He trained countless Rangers and Maintenance employees in the SC Park Service during his tenure, many of which are Park Service leaders now.

Everywhere I look at Caesars Head and Jones Gap State Parks, the care and dedication of Bryan is evident. From large scale projects to small details, Bryan has left his mark here for hundreds of thousands of visitors to enjoy every year. Myself, this park, and the park service are all better and stronger for having known Bryan.

My condolences from the Mountain Bridge Family to yours on the loss of Bryan, It is an often overused saying, but in this case I feel it is appropriate... Bryan was one of a kind.

“ I'm so sorry to hear about Bryan's passing. He was an awesome mentor and co worker at Jones Gap, and very instrumental in teaching me not only how to be a better worker but also a better person.
