“ *Faye and Tammy were among the first neighbors to come meet and welcome us to their part of the country when we arrived to inspect our new plot of land. Loving, caring neighbors and friends, we could drop over most anytime for an impromptu visit or chat over the fence. Faye shared her knowledge of the area, and some of the past structures and buildings that used to exist. We laughed over the antics of our pets, both past and those current, and once in a while we'd find an excuse to share a pizza or meet for seafood with Rhonda, her sister, and Arlee, Faye's best buddy (and I suspect partner in crime on occasion-LoL!) Faye always greeted us with a smile...she as well as her daughter Tammy are missed so terribly. We're grateful to have had such wonderful memories of them. Prayers for all of her family...🙏*

“ *I will always cherish such good memories with you and your family. Especially the days you worked with me and helped me when I was growing my business. You'd pull up and get in the car with me and laugh because I would be eating a bowl of cereal while driving. RIP sweet lady. You've earned your wings ❤️*
