“ Janet I miss you and love you. I can not stop the heartbreak I have since you left me. You are in the deepest of my heart and I may not be able to hold you now but you will forever be in my heart and you are the love of my life. It's hard not touching you and not saying good morning and good night to each other but I have memories so dear to my heart I love you forever.

“ Janet being able to say you touched my life would be a big understatement. I miss being able to have you come out of the house and say good morning in a way only you could. I remember you sitting on the Harley Davidson and your smile so so big. You have been a true and valuable friend. I will never forget you
