“ I just learned yesterday that Webby had passed in August. I met Webby through my brother Mike Watkins (also passed). He was always smiling and always had a kind word. Our family will cherish our time on this earth with him and will see him again one day in paradise.

“ Webby always did our alignments at Checker Lube, and one day he brought me back to his work area to show me that the tie rod ends on our van needed to be worked on. I told him that my husband would work on it, and Webby graciously offered to loan us his expensive tools so the job would be easier. We didn't need them then, but fast forward a couple of years to when my son was working on his first car and came up against a big engine bolt that simply would not budge with any of the tools we had. We spent a good twelve hours doing everything we could to loosen that bolt and were at a standstill when I thought of Webby. I ran out to Checker Lube and asked if he had an impact wrench we could borrow. He loaned us one that was so powerful that we had that bolt off in seconds and Webby became an instant legend and lifesaver in our family. We still talk about him, and I'm so glad to have known him. My condolences to all of his family. He was a funny, gracious, and generous man!

“ I was lucky enough to have worked with Webby. He was a very special person who loved to make others laugh. Webby had a new joke or prank for you almost every day. He was meticulous in every way especially with his tools. I learned never to play him in horseshoes because he would never lose. He was the best front end and alignment mechanic in the County and was an even better person. He will be deeply missed.

“ Webby gone way too soon. This is still so hard to believe, I have so many fond memories that I could mention but the ones that stand out the most, are how he always had a joke, and his laugh when he got you with one of them. He took so much delight in that, and it showed all over his face. The other was his knack for choosing his dog names, that made you wonder, how did he ever come up with that? Brucella has to top them all lol. I have been blessed to have brother in laws who were more like brothers to me and this hurts more than words can say. He was loved and a friend to everyone who knew him. He is no longer in pain, but will be greatly missed and never forgotten. RIP Kim. We will see you again someday.
