“ *I met Larry about 11 years ago when I went to work at the Napa store he was at. At first, we weren't sure about each other, but soon realized that we shared many interests and our friendship was created from there. Larry had great knowledge with auto parts and he had a following of customers. They would drive past numerous other places because they knew that Larry was the guy. I knew that if I asked something of him, he would give me 110%. He was one of the few that actually loved his job. The only thing he loved more was his family. Many, many times, he would tell me what one of the kids was doing and how proud he was of them and how much he loved them. I'm not sure if he ever shared his level of proudness with them, but it was well known to me and others. We're going to miss him, but I know he's in a better place. See you on the flip side Larry!*

Thank you Rob. He was very proud our 2 sons, I'm sure they know but thank you for saying it for him. Often we go through life wondering if we made our parents proud, if they knew they were loved, or even did they love us! Your comments are "spot on" & I will make sure Cody & Tyler sees this.

*Sincerely,
Beth McConnell (their mom)*

Your Comments on my oldest Brother is more than appreciated,it still hasn't settled in my heart that my oldest Brother is gone,it is unreal and I'm now realizing that one day I might wake up all alone,but the memories in my heart will last me the rest of my life .Us four brothers have truly been through trying times ,yes we have fought and argued but the brotherly love,like the Sun all ways shined again .We have been staying in touch on Facebook, sending photos and such and in no time Larry's mug would pop up telling me that he was always alert to my replies ,photos,and request ,then he was gone ,all that helps me now is knowing that he is not suffering no more .May God be with him love you Brother!!!!

Larry was missing the place where he grew up, the mountains and streams of Cathy's Creek area was our favorite swimming hole, Dad would haul us four in his Anchor Fence Pile Driver truck and would drive into the creek where we would splash each other, wash the truck and have the best of times as brothers. We had talked about him coming up and hitting those places again with fishing poles. May God take him there in his Dreams to the places we all use to often visit during our very special outings with our Loving Father
