“ *Mark was one of my very best friends. We did everything together. Now everyplace we used to go reminds me of him and I think about what he would say.*

I'm glad I got the extra time I did with him. It's hard not to pick up the phone and call him when ever I think of something to tell him and I will put long talks and his laughter.

But I am glad that he is not in pain anymore i know he is happy and free and looking down on us all. i love you Mark more than you will ever know and you will always be with me wherever I go and there will always be a smile on my when pop in my head. I love you and miss you.
