“ Jason was for sure the clown in the room. Loved acting like the tough guy in the room just to mess with someone & get them laughing. A memory I will never forget would have to be when by accident he ended up at my house & both of us were in a silly mood & ended up getting sticks out of the woods & climbing up on the roof to act as if we were doing a fight scene out of Star wars. It wasn't the easiest thing considering we were laughing so hard we could hardly stand. That was Jason though. Heres to hoping his family, loved ones, and close friends find comfort in little stories such as these. You are all in my prayers.
