“Birch” and I worked together on TV-4’s PM Magazine show in the late 80’s. His talent and great sense of humor paid off in a terrific show that reflected Richard’s love of life.

We always worked to make our show fun and exciting for our audience, always remembering that we were the eyes of the home bound. Birch helped us stay on top of the ratings books for the entire run of the show.

I often tried to get in touch after the show ended, but until now was never able to find him. Birch was a fine man, a consummate professional and a dear friend. I send my deepest love and condolences to his family and friends.

Birch made my life better. That’s the ultimate gift and Richard gave freely. He’s left a good lesson for us all.

Hi Don,

I also had the joy of working with Birch. It was only for 6-7 months back in 2001 but the friendship lasted until his passing. He was my best friend, a teacher, and my mentor. Birch kept his joy, kindness, generosity, and sense of humor till the end.

He will be greatly missed.

Remember riding the school bus with Richard when we were kids, always up beat, always had a smile on his face

Just found out today that he has passed. He was our next door neighbor and when we spoke with him he was always so sweet and kind. We did not know him well, but feel so sad to hear the news.
